

Little  Forest

COLLECTION

BRAND STORY

“

Little forest where the dreams of little dreamers come true.

Little Forest refers to a small imaginary forest hidden somewhere in the deepest heart of kids. An unknown world like a fairy tale is depicted in the product designs so that it may inspire and seize the children's unlimited imagination, delivering the pleasure of nature to them. Little Forest makes the best-designed products to help kids grow healthy and awaken their curiosity as if the designer hopes his/her children's little dreams would be fully realized in this Little Forest.

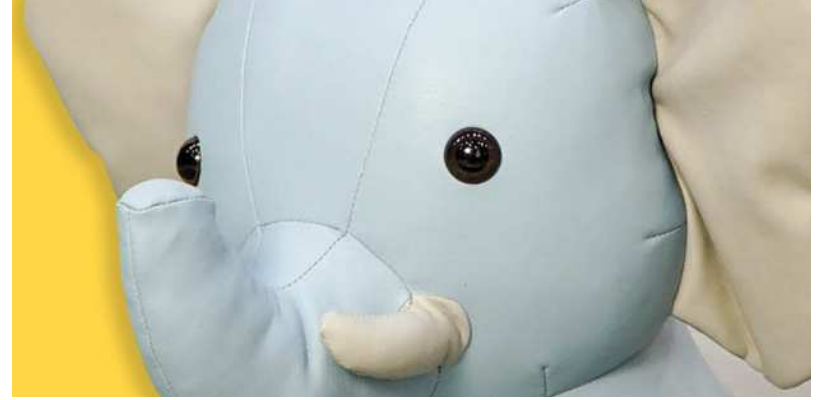

Little Forest

ROCKING HORSE

SOFT FABRIC

This is the signature product of Little Forest. It feels very soft for a baby to touch the silky fabric toy with his/her hands and cheeks. The toy is easily switched to the rocking mode from the riding mode and vice versa with a simple operation.

ARTIFICIAL LEATHER

This is a new product made of polyurethane (PU), which is soft for the baby. The waterproof toy is very smooth to play with and convenient to clean. Its nose or tail makes an exciting sound at a kid's touch, and the feeling stimulates the child's sense of touch.

BEDDING

Little Forest adds up pleasure to the kids' daily life with some bedtime stories. The bedding made in collaboration with Eric Carle, a famous children's book author, demonstrates the unique and creative colors and characters of the fairy tales and provides children with some fun bedtime stories and a comfortable bed. The bedding is made of the soft Satin 60' fabric, the eco-friendly Micro Modal fabric, and the light and warm 3M Thinsulate™ filler, which are the best quality materials.
